NOTES

1. Verifying Dimensions
The contractor shall verify dimensions against such other drawings or site conditions as pertain to this part of the work.
2. Existing Services
Any information concerning the location of existing services indicated on this drawing is intended for general guidance only. It shall be the responsibility of the contractor to determine and verify the exact horizontal and vertical alignment of all cables, pipes, etc. (both underground and overhead) before work commences.
3. Issue of Drawings
Hard copies, DWG and PDF will form a contractual issue of the drawing. All other formats (JPG, PDF etc.) are deemed to be an uncontracted issue and any work carried out based on these files is at the recipient's own risk. The contractor shall be responsible for any subsequent claims arising out of these files, either by amendment to any subsequent issue of drawings or by the contractor's use of the drawings. The contractor shall be responsible for the accuracy of the information and measurements contained in the drawings, and any errors arising when these files are used to aid the recipient's drawing production, or setting out on site.
